

Year 1 Learning Journey

Fortnight Commencing: 27th November

English:

During our English lessons over the next few weeks we will be learning how to write a diary. We will be incorporating learning how to spell the days of the week in this and adding the suffix -ed in a sentence.

Maths:

We will be continuing our learning of 2D and 3D shapes and recapping everything that we have learnt so far in Maths this term. This includes, addition, subtraction and shapes.

Reading:

During our reading lessons, we will be focusing on sounding and blending words to encourage us with our reading. We will be identifying the difference between real words and nonsense words and using phonics games to support us with this, to prepare us for our phonics screening tests next year.

Science:

We will be gathering and recording data to answer questions and perform simple tests on how the weather changes on a daily basis. For example, we will be measuring the rain fall over a period of time.

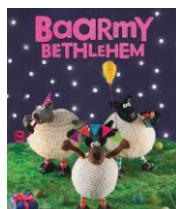

Foundation Lessons:

Geography: Linking to our 'All about the Weather' topic, we will be learning to describe what it would be like to live in a cold climate and applying our knowledge of all weather in different areas.

Personal, Social, Health Education: We will be learning how to make a call to the emergency services. We will also be learning the difference between acceptable and unacceptable physical contact.

Religious Education: Pupils to plan the celebrations of Christmas and Eid in the classroom and to know the similarities and differences.

Music: We will continue our Nativity practice.

Home Learning

Monday – My Maths work set

Wednesday – Oxford Owl reading book and quiz set

Daily - Reading

Topic - Can you measure the rainfall in your garden using a container over a week's period?

How You Can Help At Home:

Reading Matters! Please read with your child daily and ensure that this is recorded in their planner. Encourage them to 'Fred Talk' if they are unsure how to read a word and ask them questions about what they are reading to support with comprehension.

You can use the link below for free access to fun phonics games: <https://www.phonicsplay.co.uk/resources>

Support your child with Mental Maths:

- Counting in 2's, 5's and 10's from any given number
- Identify 2D and 3D shapes
- Identify 1 more and 1 less than a given number

Reminders:

Nativity: Please remember to bring in your child's nativity costume when it is ready. Thank you!

Attendance really matters. Children who have attendance of 96% and above on the final week of term before Christmas are going to have a special party treat!
